

2787 USA / Round lifting bag with backpack function

21.1 gal

110 LBS

8.8 LBS

COLOR:

With its detachable shoulder straps that allow it to be used as a backpack or lifting bag, the 2787 offers a dual purpose. This makes it ideal for both lifting and maneuvering. Working at heights and utilizing rope access are ideal uses for this bag.

- **Dimensions (open):** 13.8 x 38.6 in (Ø x H)
- **Dimensions (closed):** 13.8 x 33.1 in (Ø x H)
- **Lifting height:** 34.6 in
- **Material (main):** D1800*900 PVC flat-coated polyester
- **Material (bottom):** Polypropylene Log Plastic
- **Material (webbing):** 38 mm polyester
- The handles on the side of 2787 make handling easier.
- The shoulder straps on the bag are detachable and attachable.
- You can adjust the shoulder straps to suit your preferences.
- On the outside of the bag is a tiny pocket for a phone, radio, or other item of that kind.
- Attached to the outside of the bag is a see-through pocket that holds paper up to A4.
- A hard plastic insert is included with this bag to help keep it upright, stable, and to increase the amount of light inside.
- Polypropylene log plastic is used to create the hard bottom of the bag, which helps to maintain its shape and extend its lifespan. If necessary, it is simple to replace the replaceable bottom.
- The robust lifting straps are constructed from premium polyester webbing.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- ASME B30.9
