10.6 gal

77 LBS

7.7 LBS

COLOR:

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- ASME B30.9

4626 is a great tool bag for technicians and their daily routines. This round lifting bag was mainly developed for the purpose of working in heights and is ideal for rope access.

- **Dimensions (open):** 13,8 x 16,9 in (Ø x H)
  - **Dimensions (closed):** 13,8 x 16,9 in (Ø x H)
  - **Lifting height:** 23,6 in
  - **Material (main):** D1800\*900 PVC flat-coated polyester
  - **Material (bottom):** PE
  - **Material (webbing):** 35 mm polyester
- The bottom cover is replaceable and can be easily replaced if needed.
  - A bottom plate is sown into the bottom of the bag to offer weight distribution.
  - The bag comes with a white plastic insert making the bag upright and stable.
  - 4626 comes with two upright plastic dividers which can be used to create and divide the inside of the bag into 4 compartments.
  - This model has six pockets placed on the outside of the bag.
  - Lifting straps can be used for belt fastening.
  - The top of the bag is closed by a zipper, the pockets around the outside are closed by velcro.
  - The pockets on the outside have securing holes for attaching and securing tools and other content inside the pockets.
  - The bag comes with a comfortable attachable/detachable shoulder strap. This shoulder strap is adjustable to fit your preferences.
  - A transparent pocket is placed on the inner side of the lid for documentation or a photo card (model no. 1122).
  - Two straps for pens are placed on the inner side of the lid.
