## 4897 USA / Cylinder-shaped tool bag - Large

COLOR:

4897 takes its shape and design from the classic 3579 but offers a wider and taller volume. It has been around for many years but continues to be one of our most coveted units. The bag is straight forward and easy to handle and is perfectly suited for general tools and equipment.

- **Dimensions (open):** 18.9 x 38.6 in (Ø x H)
- **Dimensions (closed):** 18.9 x 32.7 in (Ø x H)
- **Lifting height:** 40.2 in
- **Material (main):** D1800\*900 PVC flat-coated polyester
- **Material (bottom):** Polypropylene Log Plastic
- **Material (webbing):** 50 mm polyester

- When hoisting, this model makes use of two lifting hooks.
- Premium polyester webbing is used to make the lifting straps.
- To make handling the bag easier, handles are attached to the side.
- There are three handles all around the bag.
- To maintain the shape of the bag and extend its lifespan, the hard bottom is composed of durable Polypropylene Log Plastic, which is also easily replaceable by velcro, if necessary.
- Velcro straps hold the hard bottom cover in place and prevent it from coming loose.
- An additional hard plastic insert can be mounted on this bag to increase its stability, uprightness, and internal light levels.

This model complies to the relevant parts of the following standards:

- EN 1492-1
- ISO 21898
- ASME B30.9
